CUSTOMER WEBSITE DEVELOPMENT & DIGITAL MARKETING

Statement of Work & Commercial Proposal

Prepared For	Om Pure Water Tech Solution
Prepared By	Enerzing Tech Expert
Document Type	Website Development & Digital Marketing Proposal
Date	10 October 2026

CONFIDENTIAL

1. PROJECT OVERVIEW

This proposal covers the design and HTML UI development of a responsive customer website for the client's water and wastewater product offerings, supported by lead-generation forms, product presentation, enquiry capture, and ongoing digital marketing activities.

The website will provide a professional online presence, improve product discoverability, and make it easy for visitors to contact the business, request quotations, submit feedback, and read updates through the blog.

2. WEBSITE SCOPE OF WORK

The proposed customer website will include the following pages and functional sections:

- Home page with approximately 4 to 5 key sections such as hero banner, company introduction, product highlights, service advantages, call-to-action, and contact prompt.
- About Us page covering company profile, capabilities, values, experience, and differentiators.
- Services page presenting the company's service offerings and supporting information.
- Products section with category-wise presentation for Water and Wastewater products, covering approximately 9 to 10 products in total.
- Product detail layout with product name, description, specifications/highlights, images, and Request Quotation call-to-action.
- Contact Us page with business details, location/map area, phone/email details, and enquiry call-to-action.
- Feedback form for collecting visitor/customer comments and service feedback.
- Request Quotation form with product-based selection and relevant customer requirement fields.
- Contact Us enquiry form for general business and sales enquiries.
- Blog section for publishing articles, updates, product information, and industry content.

- Responsive UI for desktop, tablet, and mobile screen sizes.

3. FORMS & LEAD CAPTURE

- Request Quotation: product/category selection, customer details, quantity/requirement, message, and submission notification.
- Contact Enquiry: name, company, phone, email, subject, message, and submission notification.
- Feedback: rating or feedback message, customer details, and submission notification.
- Form submissions will be configured for delivery to the client's nominated email address.

4. DESIGN & UI DEVELOPMENT

- Custom website visual design aligned with the client's brand and water/wastewater industry positioning.
- HTML/CSS UI development based on the approved design.
- Clean, responsive, user-friendly layouts and clear calls to action.
- Basic on-page structure and content placement for SEO readiness.
- Integration of client-provided logo, images, text, product details, contact information, and social links.

5. COMMERCIAL PROPOSAL

Website development and infrastructure charges:

Item	Description	Amount
Website Design	Custom website design and page layouts	Rs. 18,000
Website HTML UI Development	Responsive HTML/CSS UI development	Rs. 20,000
Domain	As per availability	If included free with the server; otherwise, the customer will bear the cost.
Server Hosting	Annual hosting (LAMP Server, 2GB Space and 1Mysql Server) with 2 email IDs included	Rs. 4,800 / year
Extra Email ID	Additional email ID	Rs. 200 / ID / year
SSL Certificate	SSL certificate	Rs. 700

Total website and infrastructure costing: Rs. 43,000 (rounded package total).

The itemized website/infrastructure subtotal is Rs. 43,500 before rounding. Extra email IDs, if required, will be billed at Rs. 200 each per year.

CONFIDENTIAL

6. DIGITAL MARKETING SERVICES

The following services can be taken as an ongoing digital-marketing engagement:

Service	Scope	Frequency / Basis	Price
SEO	Basic SEO activities, Google Business Profile creation, Google Analytics setup, page publishing/indexing support, and ongoing optimization.	Monthly	Rs. 6,000 / month
Facebook Page	Facebook page setup and initial configuration.	One-time	Rs. 2,000
Instagram Page	Instagram page setup and initial configuration.	One-time	Rs. 2,000
Blog & Social Content	Blog post plus 4 to 5 social posts per month, including creative banner/image work.	Monthly	Rs. 7,500 / month

7. DIGITAL MARKETING COMMERCIALS

- SEO: Rs. 6,000 per month.
- Facebook Page setup: Rs. 2,000 one-time.
- Instagram Page setup: Rs. 2,000 one-time.
- Blog post and 4 to 5 social posts with creative banner/image work: Rs. 7,500 per month.
- Digital marketing services are optional and can be activated independently or together based on the client's requirements.

8. ASSUMPTIONS & EXCLUSIONS

- Client will provide final logo, brand assets, text content, product information, product images, contact details, and legal/policy content.
- Domain registration, paid stock images, premium plugins/tools, third-party subscriptions, and paid advertising budgets are excluded unless separately agreed.
- Product count beyond the agreed 9 to 10 products, additional custom functionality, e-commerce, payment gateway, CRM/API integrations, and admin panel are outside this proposal.
- SEO outcomes depend on competition, content quality, search-engine policies, and ongoing approvals; indexing is supported but cannot be guaranteed.
- Changes outside the approved scope may require additional time and quotation.

9. PAYMENT & VALIDITY

- A mutually agreed advance payment will be required to initiate the project.
- The project schedule will begin after receipt of the advance and required content/assets.
- Hosting and other yearly renewals are payable in advance for the applicable service period.
- This proposal is valid for 15 days from the proposal date.

CONFIDENTIAL

Website payment terms:

- **Advance: 40% of the website project cost.**
- **After Development: 30% of the website project cost.**
- **After Deployment Live on Server: 30% of the website project cost.**

10. ACCEPTANCE

Acceptance of this proposal confirms agreement with the scope, commercials, assumptions, and exclusions described above.
